Climb Rate 400 - 1,000 FPM
Descent Rate 10 FPS (Engine Off)

All performance numbers will vary depending on payload including atmospheric conditions such as wind, temperature, initial altitude, and humidity.

The COMMANDER 582 Advantage

Another great option in the Commander series is the 582 featuring a Rotax dual carburetor, twin cylinder engine at 65 horsepower.

You will still enjoy a smooth and quiet flying experience, but with a slightly lower climb rate and longer take-off roll.

The Commander 582 comes equipped with the same standard features as the 912, except for the 582 comes standard with the B-drive electric start.

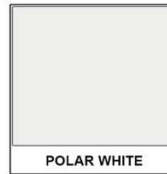

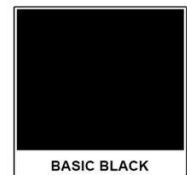

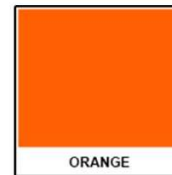

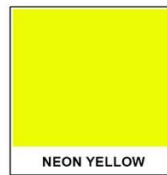

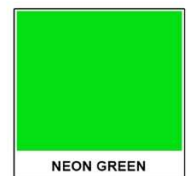

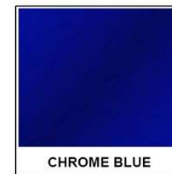

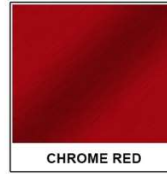

You will find that the Commander 582 offers the same comfort and safety that Infinity is known for. With the attention to details and carefully thought out features, we are confident you will be happy with your Infinity for years to come.

3 Year Chassis Warranty

To order your Infinity Power Parachute, give us a call at (269) 659-9113 and get ready to take command of the sky.
