Choice of Colors

Engine Type

Rotax 912S 100 HP 4 Cylinder, 4 Stroke Liquid Cooled with Electric Start

Airframe & Performance

Empty Weight 480 LBS
Max Payload - 600 LBS (Includes both fuel and occupant)
Fuel Capacity 10 GAL
Take Off Distance 100 to 400 FT
Landing Roll Distance 50 to 100 FT
Fuel Consumption 3 GAL/HR
Ceiling 10,500 FT
Glide Ratio 4:1
Air Speed 28 - 32 MPH
Climb Rate 600 - 1,000 FPM
Descent Rate 10 FPS (Engine Off)

All performance numbers will vary depending on payload including atmospheric conditions such as wind, temperature, initial altitude, and humidity.

The COMMANDER 912 Advantage

For the ultimate ride, the 4-stroke Rotax 912 offers the smoothest running and quietest flying experience you will find in any powered parachute.

The Commander 912 features a longer throttle stroke and precise fuel carburation system, which allows any RPM to be found within 50 RPMs. You will also enjoy better fuel efficiency and self-compensating fuel-to-air mixture for varying elevations that ensure the perfect mix regardless of your flying elevation.

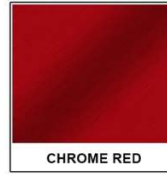

At 1,500 hours, the time between overhaul is the longest available on any powered parachute. Plus, with a passenger on board, your performance in the Commander 912 will be better than that of a Rotax 582 in solo flight.

3 Year Chassis Warranty

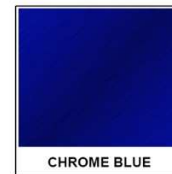

To order your Infinity Power Parachute, give us a call at (269) 659-9113 and get ready to take command of the sky.
